PRESAGE

S.H.M.R.
CARBON

- Blank made from SHMR High Resistance Carbon material
- Telescopic butt section with Woven Carbon reinforcement
- Compact closed length for convenient transport
- Double leg SiC guides throughout (Ø 50 mm on butt section)
- Graphite screw reel seat DPS style, with rubber lined metal hoods
- Nice and neat slim handle grip, dressed by a rubber shrink tube

Butt section reinforced by
Woven Carbon.

The compact closed length is achieved through a telescopic butt section which, once fully extended, develops full casting power and the necessary strength to face any prolonged fight.

Slim handle with rubber
shrink tube and K-Karp
aluminium butt medal.

Super wide butt guide (50 mm)
to allow the use of large
size reels.

FUSION CARP CRADLE

The largest K-Karp cradle can accommodate huge Carp and the long Grass Carp as well. Based on strong aluminium frame, it features tele-adjustable legs with tilting mud feet. Light and folding, it ensures the highest possible protection for the fish.

The waterproof cover enables to protect and keep the fish calm while the camera is going to be prepared. It can be rolled at both ends of the cradle.

On top left, detail of tele-adjustable legs, which offer a wide and tilting foot. On right, the side pockets are useful to store any accessories.

| 193-40-210 | K-KARP * FUSION CARP CRADLE | 145x80 (h 40) cm |

PRESAGE CARP CRADLE

Very well padded and completed by a rubber mesh on the bottom for water drainage, this cradle folds back in two for an easy transport. The strong yet light aluminium frame ends with telescopic legs, adjustable by button and featuring mud feet. Sizes are large enough to accept huge carp.

The waterproof cover enables to protect the fish and keep it calm, while the camera is being set up.

On top left, detail of tele-adjustable legs, which offer a wide and tilting foot. On right, the cover is fixed by several convenient Velcro straps.

PRESAGE WEIGH SLING

Ideal for fish weighing, this model suits the needs of mobile anglers, because it folds in half, and is perfect for short time fish keeping to allow camera preparation. For such purpose, beyond strong carry and weigh handles it also provides a retaining string. Designed for big carp and Cats, it is supplied with a waterproof sleeve.

Here on left, four buoyant elements located along top frame keep the sling afloat while preparing for carp release.

Side zippers allow this sling to be opened flat on the unhooking mat.

Fish friendly mesh with wide holes for optimum water flow.

| 193-40-155 | K-KARP * PRESAGE WEIGH SLING | 120 cm ■ h 60 cm |

The aluminium tension bars fold into two halves for easy transport.

BLK PUNISHER POD

Designed with intelligent multi-reclining legs for extreme versatility, this full aluminium pod offers twin anti-torque central bars, which can expand from 85 to extra long 150 cm length. Telescopic legs are sliding along those bars to easily adapt their position to any ground profile. The pod can be carried by a convenient bag, just removing buzz bars and leaving legs completely fold back.

A carry bag with embroidered logos is supplied with the pod (sizes 96x22x10 cm).

EXECUTOR POD

Very stable and extremely versatile, this is the 3-rod pod for the angler who looks for reliability. Completely made from aluminium, it offers an adjustable bar which goes from 64 to 104 cm in length. Buzz bar's height is reglable, and all legs are telescopic. All knobs are lever-style to perform well even in wet or icing conditions. A nice carry bag is included, while longer telescopic legs are available separately and can be stored inside the bag. As they have an arrow point, they can be used as convenient banksticks.

A carry bag with embroidered logos is supplied with the pod (sizes 75x25x8 cm).

Cam locking system.

| 192-00-381 | EXECUTOR SPARE LEGS | 66 cm > 122 cm |

The spare legs (available separately, sold in pairs) allow to customize the rod pod, giving it the «sky» configuration.

CRUSADER XS POD

It is the most compact rod pod ever made by K-Karp, developed to suit the needs of those anglers who like to fish the small ponds with short 8'-9'-10' rods and light reels in the range of 4000-5000 size.

Designed with essential features like adjustable main bar (48 to 80 cm) and 3-rods buzz bars, it's completely made from aluminium and offers telescopic legs. A strong carry bag is provided with the pod.

A carry bag with embroidered logos is supplied with the pod (sizes 60x25x8 cm).

On top right, the bite indicator's seats on buzz bars incorporate adjustable nuts. Below, the central bar's length is reglable by a convenient lever style knob which works wonder in any weather condition.

PRESAGE CHAIR

Strong and highly comfortable, Presage Chair is the best K-Karp chair, as its rigid aluminium frame ensures maximum stability and precision to all functional details. Featuring armrests and easy adjusting telescopic legs, it folds completely down for transport. Waterproof and very well padded, this seat takes advantage from high abrasion resistant fabric to serve the serious angler for long time.

Multi-angle lever style locking system for easy operability in any temperature condition.

Padded head support with embroidered logo.

Spring loaded one touch adjustable legs with mud feet.

The back rest can be adjusted to any angle for top comfort.

PRESAGE BEDCHAIR

High quality six leg model providing the highest comfort, no matter the length of the fishing session. The cover is progressively padded to support the heavier body's parts and include a thick pillow. The aluminium frame allows to adjust the backrest thanks to an efficient rack system, operated by a lever. Two side pockets allow to store a bottle and a few accessories.

High power elastic provide long life, perfect tension to the whole cover.

Presage Bedchair completely folds down for compact storage.

The head pillow features a nicely embroidered logo.

Spring loaded one touch adjustable legs with mud feet.

Nylon covered feet area can be easily washed.
